Rules:

- Each team is comprised of two curlers with no sweeping or brushing between the hog lines (Rule 6), each curler is always occupied, either delivering or skipping.
- One member of each team stays at each end of the rink, and shall not cross center ice (except as provided for in Rule 8).
- The two delivering curlers alternately deliver six stones each per end, while their teammates skip that end. Then roles are reversed.
- Each stone shall be delivered with a curling or delivery stick, from a standing or sitting (in a wheelchair) position. This provides equity for those physically unable to attain the sliding position.
- A stone is in play when it reaches the hog line at the delivering end. A stone that has not reached the hog line at the delivering end may be returned to the player and redelivered. The player will redeliver the same called shot and ice.
- Sweeping/brushing is not allowed between the hog lines. This provides fairness to those unable to sweep/ brush. It also increases the challenge, not having the advantage of sweeping/brushing to affect either line or weight in the initial travel of the stone.
- The first three stones delivered in an end may not be removed from play before delivery of the fourth stone of that end. If that happens, the delivered stone is removed from play and all other stones are returned to their original position. With fewer stones used, and fewer ends, the stick game tends to be more defensive than the regular game. This rule helps make the game more offensive. The "in play area" is the area from the hog line to the back line.
- Each team may call a maximum of two 90 second time-outs (and meet at center ice) during a game. During an extra end, one time-out per team is allowed. Whenever a time-out is called, the opposing team may consult near center ice at the same time. This allows for team member consultation during a game in a timely manner. 9. In case of a tie, an extra end is played, with each player delivering 3 stones. The curlers then exchange roles at the midpoint of an extra end to complete the end. In the event the extra end is a blank, another end is played using the extra end format with each player continuing from the end of the rink where they finished the previous extra
- TIME-OUTS: Each team may call a maximum of two 90 second time-outs (the team calling the time out can meet in the house in play, the team not calling shall meet at center ice). During an extra end, one time- out per team is allowed. Whenever a time-out is called, the opposing team may consult near center ice at the same time. This allows for team member consultation during a game in a timely manner. 9. In case of a tie, an extra end is played, with each player delivering 3 stones. The curlers then exchange roles at the midpoint of an extra end to complete the end. In the event the extra end is a blank, another end is played using the extra end format with each player continuing from the end of the rink where they finished the previous extra end.
- If delivering from a stationary position the competitor remain within 18 inches of the Centerline at all times.
- If the open or women's event has 7 or few teams, it will be a round robin format, with the top 3 teams making the playoffs. Team 1 will advance directly to the final with Team 2 and Team 3 playing in a semi-final game
